- For PEC Bank Account info. ([View details](#))

**Mechanism for Assessment and Interview for award of PE title:**

- After receipt of application, academic and professional credentials will be evaluated. The authenticity and genuineness will be verified from the concerned Institutions/ universities and professional bodies etc. The application will be processed for assessment, and the applicant will be called for assessment/interview for title of PE.
- Assessment interviews will normally last for between 20 and 30 minutes by minimum two members of panel of experts having not less than twenty years of Professional standing. The applicant will be provided 5 to 10 minutes at the start

of interview to give an uninterrupted verbal presentation about his professional competency. No presentation equipment will be allowed.

- The applicant to give brief overview on credentials meeting the criteria for professional engineer. The panel of experts will then ask questions in relation to the contents of your application, focusing on area of expertise of the applicant.
- Panel of Experts/Enrolment Committee are bound by PEC and code of ethics to maintain confidentiality of assessment and information/data provided by the applicant.
- Credentials will be assessed by Panel of Experts/Enrolment Committee. However, in case of commendable/acceptable professional work based on the submitted document's assessment, the panel may grant waiver on the necessity of an interview.
- If needed to attend an assessment/ interview, the applicant will be asked to appear before the panel of Expert/Enrolment Committee for assessment/ interview accordingly.
