Subject: PEC Career Fair for Engineers

Dear Sir/Madam!

Pakistan Engineering Council (PEC) established under PEC Act 1976, is mandated to regulate quality of engineering education and practice, with the main object viz to as a key driving force for achieving rapid and sustainable growth in all national, economic, and social fields. Since then, PEC is pro-actively working and made landmark contributions at all fronts including policy making, quality education, technical assistance to the Federal Government, codes and standards development, etc. This has resulted into international recognition as having full signatory status of Washington Accord (WA), International Professional Engineering Agreement (IPEA) and Federation of Engineering Institutions of Asia and the Pacific (FEIAP), with substantial equivalence of engineering qualification among the signatory countries and cross-border mobility of engineers in international job market.

PEC in continuation of its efforts to facilitate bridging between academia and industries, and to promote branding of Engineers and Engineering Community, is organizing a **Career Fair** for the Engineers, Employers and all relevant stakeholders as a platform to showcase top notch technologies, research, products, and Final Year Design Projects (FYDPs). It will also broaden the vision of young aspiring engineers and engineering graduates for career and professional development through interaction with potential employers and networking opportunities. Above all, it would be an opportunity for all stakeholders from both Academia and Industry for better understanding of the issues and opportunities in the engineering sector.

In the light of above, please join hands with PEC by participating in the subject event and showcase your best technologies/ FYDPs, and products for commercialization. The **PEC Career Fair for Engineers** tentatively held from July 22-23, 2022 at Expo Centre, Karachi for which details and registration can be accessible at <https://pecjobportal.matz.group/>

Best Regards,

(Engr. Dr. Ashfaq Ahmed Sheikh)

Visit of PEC Innovation Entrepreneurship Committee to SMEDA Headquarters

STAFF REPORT

ISLAMABAD — PEC Innovation/Entrepreneurship Committee (ICE) visited SMEDA (Small and Medium Enterprise Development Authority) on 15th March 2022 to explore mutual areas of interest and promoting entrepreneurial and start-up initiatives for our engineering graduates.

Mr. Hashim Raza, CEO SMEDA, apprised PEC delegation about functions, key stakeholders and services provided by SMEDA including one

window services, industrial support, linking with financial sources, training and legal guidance.

Engr. Dr. Samreen Hussain, Convener ICE, highlighted that SMEDA can be an instrumental partner to achieve tangible outcomes expected from ICE without duplicating the efforts hence preserving resources for better productivity. PEC intended to utilize SMEDA platform especially for engineering start-ups through customise training programs, third party evaluation of Business proposals and "Match

making" portal for service providers and clients. She further added that a follow-up plan with General MoU followed by discreet agreement to achieve the objectives chalked out, during the first visit, to synergize the efforts of both organizations. She requested SMEDA to share the statistics of engineering start-ups facilitated by their organization.

Both the organizations identified areas of further working such as PEC to share data of newly registered engineering firms to SMEDA for facilitation services and training for contracts including JVs, financial and legal guidance. Linking PEC Match-Making Portal to SMEDA website was also discussed. Potential projects from National Idea Bank Competition be identified for support.

PEC committee visits SMEDA Headquarters

Islamabad

PEC Innovation/ Entrepreneurship Committee (ICE) visited SMEDA (Small and Medium Enterprise Development Authority) to explore mutual areas of interest and promoting entrepreneurial and start-up initiatives for our engineering graduates, says a press release.

Hashim Raza, CEO SMEDA, apprised PEC delegation about functions, key stakeholders and services provided by SMEDA including one window services, industrial support, linking with financial sources, training and legal guidance.

Engineer Dr. Sanreen Hussain, convener ICE, highlighted that SMEDA can be an instrumental partner to achieve tangible outcomes expected from ICE without duplicating the efforts hence preserving resources for better productivity. PEC intended to utilise SMEDA platform especially for engineering start-ups through

customise training programmes, third party evaluation of Business proposals and 'Match making' portal for service providers and clients. She further added that a follow-up plan with General MoU followed by discreet agreement to achieve the objectives chalked out, during the first visit, to synergize the efforts of both organizations.

Both the organizations identified areas of further working such as PEC to share data of newly registered engineering firms to SMEDA for facilitation services and training for contracts including JVs, financial and legal guidance. Linking PEC Match-Making Portal to SMEDA website was also discussed.

The other members of ICE participated in the meeting were Engr. Dr. Bhawani Shankar Chowdhury (Deputy Convener ICE), Engr. Gp. Capt. (r) Riasat Ali Changezi, and Prof. Syed Mansoor Sarwar, VC UET, Lahore (Special Invitee).

China to open Khunjab Border from April 01: Razak

Adviser on Commerce Abdul Razak Dawood Tuesday says China would open the Khunjab Border on April 01, 2022 to boost bilateral trade volume. The opening of the border will not only help in utilisation of the second phase of Pakistan-China Free Trade Agreement (FTA) but it would also support the local commerce on both sides of the border. Especially the fruit and vegetable exporters from north side of Pakistan would benefit from this development.

Pakistan top beneficiary of Educate a Child Initiative: Amb Sheikh Saad Al Thani

Ambassador of Qatar Sheikh Saad bin Abdulaziz Al Thani, says Pakistan has become one of the fastest growing economies in the world and a close ally of the United Arab Emirates. He also mentioned that the Education About All (EAA) Initiative is a joint venture with the Qatar Development Bank (QDB) to provide quality education to the children of the underprivileged families in the country.
