LETTER OF INVITATION (LOI)

Gentlemen!

We extend warm welcome to you and invite you for participating in this consultancy assignment. We hope that you will live up to your reputation and provide us accurate information so that the evaluation is carried out "just and transparent". Please understand that the contents of this RFP, where applicable, shall be deemed part of the contract agreement. An example to this affect can be the contents of your work plan and methodology which you shall be submitting in your technical proposal. Since that is the basis of the selection, therefore, it shall become part of the contract agreement subject to approval/revisions of the same by CLIENT during the negotiations. Similarly, all other services and the content contributing to services shall be deemed part of the contract agreement unless it is specified for any particular item up-front in your technical proposal which obviously will make your proposal a conditional proposal whereby, authorizing CLIENT to may or may not consider to evaluate your proposal. Please understand that if no such mention appears up-front (i.e. on front page of technical proposal) then it shall be deemed that the consultant is in 100% agreement to the above. You are also advised to kindly read the RFP thoroughly as it can drastically affect the price structure for various services which may not be appearing directly in the terms of reference. In the end, we appreciate your participation and hope that you will feed a good proposal to merit consideration by CLIENT.

INTRODUCTION

1. You are hereby invited to submit a technical and a financial proposal for consulting service required for the assignment named in the attached Letter of Invitation (LOI). Your proposal could form the basis for future negotiations and ultimately a consultancy contract between your Firm(s) / companies or company and the Client named in the Data Sheet.
2. A brief description of the assignment and its objectives are given in the Data Sheet. Details are provided in the attached RFP for design services provided in the Documents, and will become part of agreement subsequently.
3. The assignment shall be implemented in accordance with the phasing specified in the Data Sheet.
4. To obtain first-hand information on the assignment and on the local conditions, you are encouraged to pay a visit to the Client before submitting a proposal and attend a pre-proposal conference if specified in the Data Sheet. Your representative shall meet the named officials on the date and time specified in the Data Sheet. Please ensure that these officials are advised of the visit in advance to allow adequate time for them to make appropriate arrangements. You must fully inform yourself of local conditions and take them into account in preparing your proposal.
5. Please note that:
 - a. The cost of preparing the proposal and of negotiating the Contract, including a visit to the Client, are not reimbursable as a direct cost of the assignment, and
 - b. The Client is not bound to accept any of the proposals submitted
 - c. The Consultant may please note not to suggest names of key staff already proposed in other proposals with the Client or awarded recently. This will affect adversely marking of these professionals in evaluation of the technical proposal. Their secured points are liable to be reduced by 50% if their name appears in more than 1 previous proposal in which they are ranked No.1. Also the existing load of work with a Firm(s) / companies or company shall be considered as one of the factors for the consideration in the award of the work.
 - d. The Client shall provide the inputs for this assignment as given in the Data Sheet.

ELIGIBLE FIRM(S) / COMPANIES OR COMPANY

1. May be a single Firm(s) / companies or company (with named sub-contractors if required) or a group of maximum 4 companies (hereinafter referred to as Consortium), coming together to provide Development of Consultant Management System Project. The term Firm(s) / companies or company used hereinafter would therefore apply to a single entity and/or a Consortium or joint venture.

3. Contains information required as per Appendix 3, 4, 5, 6 and 7.

The PEC reserves the right to reject any bid Application which is non-responsive and no request for alteration, modification, substitution or withdrawal shall be entertained by the Client in respect of such RFP Applications.

V. Clarifications

To facilitate evaluation of bids, the PEC may at its sole discretion, seek clarifications in writing from any Firm(s) / companies or company regarding its bid.

PREPARATION OF PROPOSAL

It will consist of two parts – Technical and Financial

A. Technical Proposal

1. The Technical Proposal should be submitted using the format specified and shall include duly signed and stamped forms appended with the RFP. This is a mandatory requirement for evaluation of proposals and needs to be filled up carefully.
2. For Technical Proposal, the general approach and methodology which you propose for carrying out the services covered in the TOR, including such detailed information as you deem relevant, together with your appreciation of the Project from provided details
3. A detailed overall work program to be provided with timing of the assignment of each expert or other staff member assigned to the project. This will also provide the Client an opportunity to effectively monitor work progress.
4. Total number of man-months and project duration as per TOR.
5. Clear description of the responsibilities of each expert staff member within the overall work program.
6. The Curriculum Vitae (CV) of all Key Staff members and an affidavit that proposed staff shall be available for the assignment during the project duration and their present place of duty may also be specified. The Firm(s) / companies or company / Consortium are advised to suggest such names that shall be available for the Assignment.
7. The technical proposal shall include duly filled in forms provided with this RFP.
8. The name, background and professional experience of each expert staff member to be assigned to the project, with particular reference to his experience of work of a nature similar to that of the proposed assignment
9. Current commitments and past performance are the basic criteria of technical proposal. You are required to provide the details of present commitments/on- going jobs as referred in the form A9 of technical proposal. Further, the basis for the past performance is the report from Engineering wing of the Client.
10. In preparing the technical proposal, you are expected to examine all terms and instructions included in the Documents. Failure to provide all requested information shall be at your own risk and may result adversely in the scoring of your proposal. The proposal should be prepared as per RFP and any suggestion or review of staff etc. should be clearly spelt out on a separate paper attached with proposal named "Comments on RFP". This will be discussed at the time of negotiation meeting as and when called.
11. During preparation of the technical proposal, you must give particular attention to the following:

B. Financial Proposal

12. The financial proposal should be submitted using the format specified (Financial Proposal Form-1, 2 & 3) and enclosed with this RFP. This is a mandatory requirement for evaluation of proposals and needs to be filled up carefully.

12.1. The Maximum Total Cost of Assignment is Rs.3.000 Million including provision sum and contingencies and all taxes.

13. The financial proposal should list the costs associated with the Assignment. These normally cover remuneration for staff in the field and at headquarters, per diem, housing, transportation for mobilization and demobilization, services and equipment (vehicles, office equipment furniture and supplies), printing of documents, surveys and investigations. These costs should be broken into foreign (if applicable) and local costs.

14. Costs may be expressed in Pakistani Rupees only.

15. The evaluation committee will correct any computational errors. When correcting computational errors, in case of discrepancy between a partial amount and the total amount, or between word and figures the formers will prevail. In addition to the above corrections, activities and items described in the Technical Proposals but not priced, in the Financial Proposals shall be assumed to be included in the prices of other activities or items. In case an activity or item is quantified in the Financial Proposal differently from the Technical Proposal, the evaluation committee shall correct the quantification specified in the Financial Proposal so as to make it consistent with that specified in the Technical Proposal.

PROPOSAL EVALUATION

A quotation procedure shall be adopted in ranking of the proposals. The technical evaluation shall be carried out, followed by the financial evaluation. The Firm(s) / companies or company / Consortium shall be ranked using a combined technical/financial score.

A. Technical Proposal

1. The evaluation committee appointed by the Client shall carry out its evaluation for all the projects as listed later in this document, applying the evaluation criteria and point system specified later. Each responsive proposal shall be given a technical score: St. The Firm(s) / companies or company / Consortium scoring less than seventy (70) percent points shall be rejected and their financial proposals returned un-opened.
2. The technical proposal will carry 80% weight in the final evaluation (T- the weight given to the technical proposal , $T=0.8$)
3. The technical Evaluation methodology is given in section "Technical Evaluation" section

B. Financial Proposal

1. The financial quote of the Firm(s) / companies or company / Consortium on the basis of evaluation of technical proposals shall be reviewed.
2. The evaluation committee shall determine whether the financial proposals are complete and without computational errors. The lowest financial proposal (Fm) among all shall be given a

financial score: Sf of 1000 points. The financial scores of the proposals shall be computed as follows:

$$Sf = (1000 \times Fm) / F$$

(F = amount of specific financial proposal)

3. The financial proposal will carry 20% weight in the final evaluation, P = the weight given to the financial proposal (P = 0.2)
4. Proposals, in the Quality Cum Cost Based Selection (QCBS) shall finally be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T= the weight given to the technical proposal, P = the weight given to the financial proposal, and T+P=1) stated in the Data Sheet

$$S = St \times T\% + Sf \times P\%$$

SUBMISSION OF PROPOSALS

1. You shall submit one original technical proposal and one original financial proposal be placed in an envelope along with two copies.
2. In the event of any discrepancy between the copies of the proposal, the original shall govern. The original and each copy of the technical and financial proposals shall be prepared in indelible ink and shall be signed by the authorized Consultant's representative. The representative's authorization shall be confirmed by a written power of attorney accompanying the proposals. All pages of the technical and financial proposals shall be initialed by the person or persons signing the proposal
3. The proposal shall contain no interlineations or overwriting except as necessary to correct errors made by the Firm(s) / companies or company / Consortium themselves. Any such corrections shall be initiated by the person or persons signing the proposal
4. The completed technical and financial proposals shall be delivered on or before the time, date, and the location specified in the Data Sheet
5. The proposals shall be valid for the number of days stated in the Data Sheet from the date of its submission. During this period, you shall keep available the professional staff proposed for the assignment. The Client shall make its best effort to complete negotiations at the location stated in the Data Sheet within this period.

NEGOTIATION

1. Prior to the expiration of proposal validity, the Client shall notify the successful Consultant who submitted the highest ranking proposal in writing, by registered letter, cable telex or facsimile and invite it to negotiate the Contract.
2. Negotiations normally take from two to five days. The aim is to reach agreement on all points and initial a draft contract by the conclusion of negotiations.

3. Negotiations shall commence with a discussion of your technical proposal. The proposed methodology, work plan, staffing and any suggestions you may have made to improve the TOR. Agreement shall then be reached on the final TOR, the staffing, and the bar charts, which shall indicate activities, staff, periods in the field and in the home office, staff months, logistics and reporting.
4. Changes agreed upon shall then be reflected in the financial proposal, using proposed unit rates (no negotiation of the staff month rates).
5. Having selected Firm(s) / companies or company / Consortium on the basis of, among other things, an evaluation of proposed key professional staff, the Client expects to negotiate a contract on the basis of the staff named in the proposal. Prior to contract negotiations, the Client shall require assurances that the staff members will be actually available. The Client shall not consider substitutions of key staff except in cases of unexpected delays in the starting date or incapacity of key professional staff for reasons of health.
6. The negotiations shall be concluded with a review of the draft form of the contract. The Client and the Firm(s) / companies or company / Consortium shall finalize the contract to conclude negotiations. If negotiations fail, the Client shall invite the Firm(s) / companies or company / Consortium that received the second highest score in ranking to Contract negotiations. The procedure will continue with the third in case the negotiation process is not successful with the second ranked consultants.

AWARD OF CONTRACT

1. The contract shall be awarded after successful negotiations with the selected Firm(s) / companies or company / Consortium and approved by the competent authority. Upon successful completion of negotiations/initialing of the draft contract, the Client shall promptly inform the other Firm(s) / companies or company / Consortium that their proposals have not been selected.
2. The selected Firm(s) / companies or company is expected to commence the assignment on the date and at the location specified in the section "Deadline and Durations".

TERMS OF REFERENCE

Introduction

The Pakistan Engineering Council is a statutory body, constituted under the PEC Act 1976 (V of 1976) amended upto 24th January 2011, to regulate the engineering profession in the country such that it shall function as key driving force for achieving rapid and sustainable growth in all national, economic and social fields. The council shall as its mission set and maintain realistic and internationally relevant standards of professional competence and ethics for engineers, and license engineers, and engineering institutions to competently and professionally promote and uphold the standards.

The Pakistan Engineering Council hereinafter the client intends to engage competent and qualified firms or company / Consortium for "Revamping and Development of Consultant Management System for Pakistan Engineering Council".

As a part of wider Reforms, the PEC has been taking initiatives towards digitization of its services with an aim of leveraging the existing advancements in technology to bring about a comprehensive digital transformation within the department, for enhanced and streamlined consultant management. The PEC has the mandate to catalogue, register and maintain membership record of the engineering consultants in Pakistan.

In this context the PEC intends to hire the professional services of a consultant firm to revamp the existing system to register the consultants and firms. The PEC also intends to automate the consultant licensing and their renewal. In this context a system needs to be designed and developed to automate these processes.

1. Introduction to the Assignment

The blooming technology has taken deep roots in every field nowadays. It is impossible for anyone to imagine a world without high modern computing environment. In Operational level of any organization there are large number of data collected. The collection of data helps to improve the routine activity and affect the overall performance of any organization. Most of the organizations have automated computer systems for handling their data. The use of technology radically improves the efficiency and accuracy with high scalability and sustainability. The main

advantage is that the technology can be programmed and changed from time to time with change in activities.

Technology enables the management to take crucial decisions and helps in solving problems. With technology the management can take better decisions and can draw conclusions with help of precise data in no time. Preparing daily reports in a dynamic technology environment makes it easier for the management in having the right level of visibility, increasing confidence level in the decision making. The rise and the falls in performance can be easily traced with several automated systems

2. Objectives of the assignment.

The assignment will provide a foundation to manage consultant registration, licensing and renewal Processed through the process automation, establish common standards, lead organizational change management, and enable strong automation collaboration between the consultants and IT-Section of PEC to drive performance and provide transformational opportunities for the advancement of the PEC.

The assignment's core objectives will be to assess the current state of the following PEC processes to determine the maturity level / readiness of the processes from automation perspective, identify gaps, define target state and design/development of a software system to achieve the target state (i.e. automated consultant management and registration system).

The assignment will cover the following key steps:

- i. Examine and review existing consultant/firm registration Process including institutional and system arrangements for coordination with individual consultants and firms. The consultant will finalize in mutual collaboration with PEC the Data gathering & Application Process, online scrutiny based upon validation parameters as define in Policy Decisions & Regulations of PEC.
- ii. The consultant will also map the current Case/Application Tracking & Timelines with study of existing application and structure.
- iii. Perform analysis of existing process for consultant / firm registration and data keeping.
- iv. Analysis of requirement for the new system, Technology, well Planned Architecture and Frameworks.
- v. Design and develop a system for Online Registration, Profile reviewing, categorization, specialization, Feedback. Technical Review / Recommendations. Introduce interactive &

innovative Online registration System to automate scrutiny of the application received from different firms/consultants for speedy disposal.

- vi. Perform analysis of existing data storage framework and suggest data retention plan in light of nature of data.
- vii. Suggest best practices for storage options with disaster recovery.

3. Implementation period – Deliverables : Six (6) Months:
